## 托福口语 Question 1 & 2 【人物题】回答范例

### 范例 1

Well, as far as I'm concerned, Frank is the most helpful teacher to me, and I have two main reasons for that.

To begin with, he is really concerned about all the students in his class. For example, he would meet me and other students after class to make sure we understood his lessons.

Also, personally speaking, he is of great help to those ambitious students who are willing to go abroad to further their education. For instance, he helped students who were eager to attend foreign universities fill out their applications and edit their personal statements till very late.

### 范例 2

I respect and admire my mother more than anyone else in this world as far as I'm concerned.

First and foremost, she treats me with extraordinary patience and an open mind forever. When I was little and naughty, it took my mom many efforts to teach me about good and bad. When I got radical, my mother was patient enough to bring me back to the track.

In addition, she was always supportive when I raised reasonable requests, since she trusted me to make my own decisions, like how to spend my pocket money or which study group to join.

### 范例 3

As far as I'm concerned, what makes a good friend is someone who is honest and has a good sense of humor.

For one thing, I just look for someone who's honest to me no matter what. He should not tell stories behind my back; he should tell me my short-comings at my mouth, but never praises me in front of me.

Besides, I'd love to spend more time with someone who can make me laugh and is fun to be around. That is to say, he can really lift my spirits whenever I get down or upset. Therefore I could always feel soothed and relieved in the time I spent with him.
